

Document Guide for Login and Start Video in A-VIEW

User name:

Password:

Session Name:

Server: **National Server**

Enter your **Username** and **Password**

Please choose Login Type as “**Normal**”. Don’t select Login Type as “Camera”.

While clicking the Login button, you will get in to the list of Live Sessions

Example:

Click on the **Join Now** button near to “ ----- ”

It will take you to the Class Room with your name listed in the user list

Users: 1	<input type="checkbox"/>	IC	Status
 M: Dr Wolfgang Quint Amrita University		0	

Now click the “Start your video button” just above to the Users Tab

It would ask “Would you like to test audio/video devices before you start streaming”.

You could choose “Yes” and do Pretesting.

Complete one by one, Speaker, Microphone and Video. Save the testing and close it.

In the Settings Window:

Streaming Options: **Audio & Video**

Video Bandwidth can be kept as 128 Kbps.

By Clicking “**Start**” button, your video will get start publishing and your local video will get displayed at right top of A-VIEW.
